

# GOVERNMENT COLLEGE OF ENGINEERING AURANGABAD, CHHATRAPATI SAMBHAJINAGAR

## INNOVEX

### 1. DESCRIPTION:

**"The stage where imagination drives innovation."**

India Innovates is a premier platform dedicated to nurturing creativity and innovation among students. Organized by the Electronics and Telecommunication (ENTC) Department, this event brings together young minds to present groundbreaking ideas and projects that contribute to technological, scientific, and social progress. Participants are encouraged to design and demonstrate innovative hardware or software solutions that address real-world challenges.

The event serves as a convergence point for students, professionals, and industry leaders to collaborate, inspire, and foster technological advancement. It promotes a culture of creativity, collaboration, and problem-solving in an engaging and competitive environment.

### 2. RULES:

- The competition is open to college and school students.
- Schools and colleges are aligned in different sections.
- Prizes are different for Sections.
- Teams can consist of a maximum of 3 members.
- Each team must present their ideas as a hardware or software project.
- Registration must be completed online through the official Wings website before the specified deadline.
- Teams must showcase a live demonstration of their projects at the event.
- All projects should be original. Pre-made projects are strictly prohibited and will result in immediate disqualification if detected.
- Teams are responsible for bringing the necessary equipment and materials for their stalls.
- Participants must arrive at the venue at least 30 minutes before the event starts to set up their stalls and complete any on-site formalities.

### 3. EVENT FORMAT & ROUND

The competition consists of two primary rounds:

# GOVERNMENT COLLEGE OF ENGINEERING AURANGABAD, CHHATRAPATI SAMBHAJINAGAR

## **Round 1: Initial Screening(It is not an elimination round.)**

- Teams must submit a brief description of their project online during registration, including:
- Project name.
- Problem addressed.
- Overview of the proposed solution.

## **Round 2: Live Demonstration**

- Selected teams will demonstrate their projects at allocated stalls during the event.
- The demonstration should include:
- A clear explanation of the idea.
- Live working of the hardware or software.
- Practical implementation and benefits.

Each team will be given 15 minutes for their demonstration and Q&A session with the judges. Few upcoming and top teams will have a panel discussion with renowned industrialists and can earn internship offers.

## **4. JUDGING CRITERIA:**

The judging panel will evaluate projects based on the following criteria:

- Originality and Innovation: How unique and creative the idea is.
- Impact and Practicality: Potential usefulness and scalability of the idea in real-world scenarios.
- Resource Utilization: Efficiency and effectiveness in using available resources.
- Competitive Edge: How well the idea stands out compared to similar existing solutions.
- Presentation and Demonstration: Clarity and professionalism in presenting the project.

**THE DECISION OF THE JUDGES IS FINAL AND BINDING.**
